EduFathom Academic Conferences

OFFICIAL CONFERENCE BROCHURE

1st International Conference on Emerging Technologies, Artificial Intelligence, Management Innovation, and Future Healthcare

Bridging Next-Generation Computing, Intelligent Systems, Leadership Models, and Clinical Innovation.

Date: **30 November 2026**

Format: **Interactive & Digital Presentation**

Status: **Double-Blind Refereed**

About the Conference

The **1st International Conference on Emerging Technologies, Artificial Intelligence, Management Innovation, and Future Healthcare** is an interdisciplinary international conference providing an academic platform for researchers, academicians, corporate practitioners, healthcare leaders, and postgraduate scholars. The conference is convened to examine transformative synergies between state-of-the-art technological architectures, machine intelligence, modern organizational strategies, and progressive healthcare paradigms.

In an increasingly interconnected research ecosystem, breakthrough innovations emerge at the convergence of disciplines. The conference provides an inclusive, peer-reviewed environment for presenting theoretical developments, methodological innovations, empirical investigations, and practical solutions addressing global societal and organizational challenges.

Core Thematic Pillars

Scholarly contributions are welcomed across the following four core tracks. Authors may submit papers addressing a single specialization or exploring interdisciplinary intersections across multiple domains:

1. Emerging Technologies

- Advanced Cloud Infrastructure & Distributed Computing
- Internet of Things (IoT) & Smart Autonomous Systems
- Cybersecurity, Information Integrity & Data Privacy
- Next-Generation Networks, 5G/6G & Edge Architectures
- Sustainable Technology Implementation & Green Computing

2. Artificial Intelligence

- Machine Learning, Deep Learning & Predictive Modeling
- Natural Language Processing & Large Language Models
- Computer Vision, Image Processing & Pattern Recognition
- Intelligent Decision Support Systems & Process Automation
- AI Ethics, Algorithmic Transparency, Fairness & XAI

3. Management Innovation

- Strategic Digital Transformation & Organizational Agility
- Tech-Driven Business Models & Disruptive Innovation
- Leadership Paradigms, Agile Operations & Future of Work
- Analytics-Driven Decision Making & Digital HR Management
- Governance, Corporate Responsibility & Innovation Systems

4. Future Healthcare

- Artificial Intelligence in Clinical Diagnostics & Precision Care
- Smart Healthcare Management & Health Informatics (EHR)
- Telemedicine, Connected Health & Remote Patient Monitoring
- Medical Robotics, Assistive Tech & Intelligent Therapeutics
- Digital Health Ethics, Patient Data Protection & Clinical Safety

Scholarly Participation Pathway

STEP 1

Abstract Submission

Submit structured abstract (200-300 words) with clear methodology and scope.

STEP 2

Peer Review

Rigorous double-blind review by international academic peers.

STEP 3

Full Paper / Camera-Ready

Format paper using official conference template and submission guidelines.

STEP 4

Conference Presentation

Present findings and engage in academic exchange with global peers.

Scholarly Submission & Participation Guidance:

The 1st International Conference on Emerging Technologies, Artificial Intelligence, Management Innovation, and Future Healthcare welcomes original research manuscripts, empirical studies, and case reviews. Authors are invited to prepare structured submissions following official author guidelines and presentation templates. All accepted papers undergo rigorous peer review and are scheduled for oral and digital presentation sessions.

EduFathom International Conferences

Dedicated to advancing international scholarly communication, rigorous peer review, and academic collaboration. Visit the official conference portal to inspect documents, author formatting templates, and preparatory materials.
